MORGAN CREEK GLOBAL EQUITY LONG/SHORT INSTITUTIONAL FUND

(A DELAWARE STATUTORY TRUST)

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2024 (UNAUDITED)

1. Organization and Nature of Business

Morgan Creek Global Equity Long/Short Institutional Fund (the “Fund”) was organized under the laws of the State of Delaware as a statutory trust on August 16, 2010. The Fund commenced operations on October 3, 2011 (“Commencement of Operations”) and operates pursuant to the Agreement and Declaration of Trust (the “Trust Instrument”). The Fund is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as a closed-end, non-diversified management investment company. While non-diversified for 1940 Act purposes, the Fund intends to comply with the diversification requirements of Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”), as such requirements are described in more detail below.

The Fund is structured as a regulated investment company and its investment objective is to generate greater long-term returns when compared to traditional equity market benchmarks, while exhibiting a lower level of volatility and a modest degree of correlation to these markets. The Fund seeks to achieve this objective primarily by investing in private funds and other pooled investment vehicles (collectively, the “Portfolio Funds”), and exchange traded funds, common stocks (including selling common stocks short), purchased options, and preferred stock, (collectively, the “Securities”) that are not expected to be highly correlated to each other or with traditional equity markets over a long-term time horizon. The Fund normally invests 80% of its assets in Portfolio Funds that will primarily engage in long/short equity strategies and equity securities that augment these strategies. Under normal circumstances, 80% or more of the investment portfolios of the Portfolio Funds on an aggregate basis will consist of equity securities and 40% or more of the investment portfolios of the Portfolio Funds on an aggregate basis will be non-U.S. securities. The Portfolio Funds are managed by third-party investment managers (the “Managers”) selected by the investment adviser, with the intention of adding additional Portfolio Funds as the need to diversify among additional Portfolio Funds increases. The Advisor (as defined below) pursuant to a “Hybrid Model” augments the core Portfolio Fund holdings of the Fund with direct investments in equity securities that are consistent with the investment ideas of the Managers (as defined below).

Morgan Creek Capital Management, LLC (the “Advisor”), a North Carolina limited liability company registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the “Advisers Act”), serves as the Fund’s investment adviser. The Advisor is responsible for providing day-to-day investment management services to the Fund, subject to the oversight of the Fund’s Board of Trustees (the “Board” or each separately a “Trustee”).

The Board has overall responsibility for overseeing the Fund’s investment program and its management and operations. Two of the four Trustees are “Independent Trustees” who are not “interested persons” (as defined by the 1940 Act) of the Fund.

Investors in the Fund (“Shareholders”) are governed by the Trust Instrument and bound by its terms and conditions. The security purchased by a Shareholder is a beneficial interest (a “Share”) in the Fund. All Shares shall be fully paid and are non-assessable. Shareholders shall have no preemptive or other rights to subscribe for any additional Shares. The Fund offers and sells two separate classes of Shares designated as Class A (“Class A Shares”) and Class I (“Class I Shares”). Class A Shares and Class I Shares are subject to different fees and expenses. Class A Shares are offered to investors subject to an initial sales charge. Class I Shares are not subject to an initial sales charge and have lower ongoing expenses than Class A Shares. All shares issued prior to April 1, 2016 have been designated as Class I Shares in terms of rights accorded and expenses borne.

Investments in the Fund generally may be made only by U.S. persons who are “accredited investors” within the meaning of Rule 501(a) of Regulation D promulgated under the Securities Act of 1933, as amended and “qualified clients” within the meaning of Rule 205-3 promulgated under the Advisers Act. The Fund may decline to accept any investment in its

discretion. The Board (or its designated agent) may admit Shareholders to the Fund from time to time upon the execution by a prospective investor of the appropriate documentation. Shares will be issued at the current net asset value (“NAV”) per Share of the class plus an initial sales charge for Class A Shares.

The Board, from time to time and in its sole discretion, may determine to cause the Fund to offer to repurchase Shares from Shareholders pursuant to written tenders by Shareholders. The Advisor anticipates that it will recommend to the Board to cause the Fund to conduct repurchase offers on a quarterly basis in order to permit the Fund to conduct repurchase offers for Shares. However, there are no assurances that the Board will, in fact, decide to undertake any repurchase offer. The Fund will make repurchase offers, if any, to all Shareholders, on the same terms, which may affect the size of the Fund’s repurchase offers. A Shareholder may determine, however, not to participate in a particular repurchase offer or may determine to participate to a limited degree, which will affect the liquidity of the investment of any investor in the Fund. In the event of a tender for redemption, the Fund, subject to the terms of the Trust Instrument and the Fund’s ability to liquidate sufficient Fund investments in an orderly fashion determined by the Board to be fair and reasonable to the Fund and all of the Shareholders, shall pay to such redeeming Shareholder within 90 days the proceeds of such redemption, provided that such proceeds may be paid in cash, by means of in-kind distribution of Fund investments, or as a combination of cash and in-kind distribution of Fund investments. Shares will be redeemed at the current NAV per Share of the class.

On February 25, 2022 the Board decided it was in the best interest of the Fund and its Shareholders to liquidate the Fund as of May 31, 2022. The Board approved a Plan of Liquidation (the “Plan”), which provides for the liquidation of the Fund, the pro rata distribution of the assets of the Fund to its shareholders and the closing of Fund shareholder accounts. As such all tender offers and sales were suspended effective April 1, 2022.

Under the Liquidation Plan, the Fund will make pro-rata distributions to Shareholders as the Underlying Portfolio Funds are liquidated. The Fund anticipates that the liquidation could take several years.

2. Summary of Significant Accounting Policies

Basis for Accounting

The accompanying financial statements of the Fund are prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) and in accordance with Accounting Standards Codification (“ASC”) as set forth by the Financial Accounting Standards Board (“FASB”). The Fund maintains its financial records in U.S. dollars and follows the accrual basis of accounting. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Management has determined that the Fund is an investment company in accordance with FASB ASC 946 “Investment Companies” for the purpose of financial reporting.

Investment in the Fund

The Fund is offered on a continuous basis through Morgan Creek Capital Distributors, LLC (the “Distributor”), an affiliate of the Advisor. The initial closing date for the public offering of Class I Shares was October 3, 2011. Class I Shares were offered at an initial offering price of \$1,000 per Share, and have been offered in a continuous monthly offering thereafter at the Class I Shares’ then current NAV per Share. The initial closing date for the public offering of Class A Shares was April 1, 2017. Class A Shares were offered at an initial offering price of \$1,000 per Share, and have been offered in a continuous monthly offering

thereafter at the Class A Shares' then current NAV per Share. The Distributor may enter into selected dealer arrangements with various brokers, dealers, banks and other financial intermediaries ("Selling Agents"), which have agreed to participate in the distribution of the Fund's Shares.

Valuation of Portfolio Funds

The Fund carries its investments in Portfolio Funds at fair value in accordance with FASB ASC 820 "Fair Value Measurements and Disclosures" ("ASC 820") which clarifies the definition of fair value for financial reporting, establishes a hierarchical disclosure framework for measuring fair value and requires additional disclosures about the use of fair value measure.

The NAV of the Fund is determined as of the close of business at the end of any fiscal period, generally monthly, in accordance with the valuation principles described below, or as may be determined from time to time pursuant to policies established by the Advisor. The Fund's NAV is calculated by the Fund's administrator.

The Board has ultimate responsibility for valuation but has delegated the process of valuing securities for which market quotations are not readily available to the Valuation Committee (the "Committee"). The Committee is responsible for monitoring the Fund's valuation policies and procedures (which have been adopted by the Board and are subject to Board oversight), making recommendations to the Board on valuation-related matters and ensuring the implementation of the valuation procedures used by the Fund to value securities, including the fair value of the Fund's investments in Portfolio Funds. These procedures shall be reviewed by the Board no less frequently than annually. Any revisions to these procedures that are deemed necessary shall be reported to the Board at its next regularly scheduled meeting.

Investments in Portfolio Funds held by the Fund are valued as follows:

The Fund measures the fair value of an investment that does not have a readily determinable fair value, based on the NAV of the investment as a practical expedient, without further adjustment, unless it is probable that the investment will be sold at a value significantly different than the NAV in accordance with ASC 820. If the practical expedient NAV is not as of the reporting entity's measurement date, then the NAV is adjusted to reflect any significant events that may change the valuation. In using the NAV as a practical expedient, certain attributes of the investment, that may impact the fair value of the investment, are considered in measuring fair value. Attributes of those investments include the investment strategies of the investees and may also include, but are not limited to, restrictions on the investor's ability to redeem its investments at the measurement date. The Fund is permitted to invest in alternative investments that do not have a readily determinable fair value and, as such, has elected to use the NAV as calculated on the Fund's measurement date as the fair value of the investments. Investments in Portfolio Funds are subject to the terms of the Portfolio Funds' offering and governing documents. Valuations of the Portfolio Funds may be subject to estimates and are net of management and performance incentive fees or allocations payable to the Portfolio Funds as required by the Portfolio Funds' operating documents.

The Advisor's rationale for the above approach derives from the reliance it places on its initial and ongoing due diligence, which understands the respective controls and processes around determining the NAV with the Managers of the Portfolio Funds. The Advisor has designed an ongoing due diligence process with respect to the Portfolio Funds and their Managers, which assists the Advisor in assessing the quality of information provided by, or on behalf of, each Portfolio Fund and in determining whether such information continues to be reliable or whether further investigation is necessary.

MORGAN CREEK GLOBAL EQUITY LONG/SHORT INSTITUTIONAL FUND

(A DELAWARE STATUTORY TRUST)

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

SEPTEMBER 30, 2024 (UNAUDITED)

Where no value is readily available from a Portfolio Fund or Securities or where a value supplied by a Portfolio Fund or pricing service for a security is deemed by the Advisor not to be indicative of its fair value, the Advisor will determine, in good faith, the fair value of the Portfolio Fund or Securities subject to the approval of the Board and pursuant to procedures adopted by the Board and subject to the Board's oversight. The Advisor values the Fund's assets based on such reasonably available relevant information as it considers material. Because of the inherent uncertainty of valuation, the fair values of the Fund's Portfolio Funds may differ significantly from the values that would have been used had a ready market for the Portfolio Funds held by the Fund been available.

Cash and Cash Equivalents

Cash and cash equivalents include cash and time deposits with an original maturity of 90 days or less, and are carried at cost, which approximates fair value. The Fund considers all highly liquid short-term investments, with maturities of ninety days or less when purchased, as cash equivalents. As of September 30, 2024, the Fund held \$899,568 of cash equivalents in UMB interest bearing deposit account.

Income and Operating Expenses

The Fund bears its own expenses including, but not limited to, legal, accounting (including third-party accounting services), auditing and other professional expenses, offering costs, administration expenses and custody expenses. Interest income and interest expense are recorded on an accrual basis. Dividend income on Portfolio Funds and Securities and dividend expense on securities sold short is recorded on the ex-dividend date and net of foreign withholding taxes. Operating expenses are recorded as incurred.

Recognition of Gains and Losses

Change in unrealized appreciation/depreciation from each Portfolio Fund and Security is included in the Statement of Operations as net change in unrealized appreciation/depreciation on investments.

Investment transactions in Portfolio Funds and Securities are recorded on a trade date basis. Any proceeds received from Portfolio Fund redemptions and Security sales that are in excess of the Portfolio Fund's or Security's cost basis are classified as net realized gain from investments on the Statement of Operations. Any proceeds received from Portfolio Fund redemptions and Security sales that are less than the Portfolio Fund's or Security's cost basis are classified as net realized loss from investments on the Statement of Operations. Realized gains and losses from investments in Portfolio Funds and Securities are calculated based on the specific identification method.

Class Allocations and Expenses

Investment income, unrealized and realized gains and losses, common expenses of the Fund, and certain Fund-level expense reductions, if any, are allocated monthly on a pro-rata basis to each class based on the relative net assets of each class to the total net assets of the Fund. Certain expense reductions may also differ by class. For the reporting period, the allocated portion of income and expenses to each class as a percent of its average net assets may vary due to the timing of recording these transactions in relation to fluctuating net assets of the classes. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are known.

Income Taxation

The Fund intends to continue to comply with the requirements of Subchapter M of the Code applicable to regulated investment companies (“RICs”) and to distribute substantially all of its taxable income to its Shareholders. Therefore, no provision for federal income taxes is required. The Fund files tax returns with the U.S. Internal Revenue Service and various states. The Fund may be subject to taxes imposed by countries in which it invests. Such taxes are generally based on a Portfolio Fund’s or Security’s income earned or gains realized or repatriated. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. The Fund has concluded there are no significant uncertain tax positions that would require recognition in the financial statements as of September 30, 2024. If applicable, the Fund recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in other expenses on the Statement of Operations. Generally, tax authorities can examine all tax returns filed for the last three years. The Fund’s major tax jurisdictions are the United States, the State of Delaware, and the State of North Carolina. As of September 30, 2024, the tax years 2021 to 2024 remain subject to examination.

As of September 30, 2024, the cost and related gross unrealized appreciation and depreciation for tax purposes were as follows

Cost of investments for tax purposes	\$ 3,563,158
Gross tax unrealized appreciation	\$ 726,425
Gross tax unrealized depreciation	\$ (1,442,427)

Distribution of Income and Gains

The Fund declares and pays dividends annually from its net investment income. Net realized gains, if any, are distributed at least annually. Distributions from net realized gains for book purposes may include short-term capital gains, which are included as ordinary income for tax purposes.

The Fund generally invests its assets in Portfolio Funds organized outside the United States that are treated as corporations for U.S. tax purposes and are expected to be classified as passive foreign investment companies (“PFICs”). As such, the Fund expects that its distributions generally will be taxable as ordinary income to the Shareholders.

Pursuant to the dividend reinvestment plan established by the Fund (the “DRIP”), each Shareholder whose shares are registered in its own name will automatically be a participant under the DRIP and have all income, dividends and capital gains distributions automatically reinvested in additional Shares.

There were no distributions paid during the six months ended September 30, 2024 or the year ended March 31, 2024.

3. Fair Value of Financial Instruments

In accordance with ASC 820, the Fund discloses the fair value of its investments in Portfolio Funds and Securities in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

Level 1 - Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access at the measurement date;

Level 2 - Other significant observable inputs; and

Level 3 - Other significant unobservable inputs.

Inputs broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. The Advisor generally uses the NAV per share of the investment (or its equivalent) reported by the Portfolio Fund as the primary input to its valuation; however, adjustments to the reported amount may be made based on various factors.

A Security's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Advisor. The Advisor considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple, independent sources that are actively involved in the relevant market.

The Advisor's belief of the most meaningful presentation of the strategy classification of the Portfolio Funds and Securities is as reflected on the Schedule of Investments.

Portfolio Funds are generally funds whose shares are issued pursuant to an exemption from registration under the 1940 Act or are issued offshore. The frequency of such subscription or redemption options offered to investors is dictated by such fund's governing documents. The amount of liquidity provided to investors in a particular Portfolio Fund is generally consistent with the liquidity and risk associated with the Portfolio Funds (*i.e.*, the more liquid the investments in the portfolio, the greater the liquidity provided to the investors).

Liquidity of individual funds varies based on various factors and may include "gates," "holdbacks," and "side pockets" (defined in the Fund's prospectus) imposed by the manager of the fund, as well as redemption fees which may also apply. These items have been identified as illiquid or 0 - 5 years on the Schedule of Investments.

Assumptions used by the Advisor due to the lack of observable inputs may significantly impact the resulting fair value and therefore the Fund's results of operations.

As of September 30, 2024, the Fund held Investments in Portfolio Funds with a fair value of \$2,847,156 that in accordance with ASU 2015-07, are excluded from the fair value hierarchy and measured at NAV.

There were no changes in valuation technique and no transfers between the levels of the fair value hierarchy during the reporting period.

4. Investments in Portfolio Funds and Securities

The Fund has the ability to liquidate its investments in Portfolio Funds periodically, ranging from monthly to every five years, depending on the provisions of the respective Portfolio Funds' operating agreements. As of September 30, 2024, the Fund was invested in fourteen Portfolio Funds. All Portfolio Funds in which the Fund invested are individually identified on the Schedule of Investments. These Portfolio Funds may invest in U.S. and non-U.S. equities and equity-related instruments, fixed income securities, currencies, futures, forward contracts, swaps, commodities, other derivatives, and other financial instruments.

The Managers of substantially all Portfolio Funds receive an annual management fee from 1% to 2% of the respective Portfolio Fund's NAV. Management of the Portfolio Funds also receive performance allocations from 15% to 20% of the Fund's net profit from its investments in the respective Portfolio Funds, subject to any applicable loss carryforward provisions, as defined by the respective Portfolio Funds' operating agreements.

For the period ended September 30, 2024, there were no purchases and aggregate proceeds from sales of investments in Portfolio Funds and Securities were \$13,177.

5. Offering of Shares

The Fund's Share activities for the six months ended September 30, 2024 were as follows:

	Balance as of April 1, 2024	Subscriptions	Redemptions	Distributions Reinvested	Balance as of September 30, 2024
Class I	<u>8,850.35</u>	<u> </u>	<u>(1,808.31)</u>	<u> </u>	<u>7,042.04</u>
Class A	<u>206.67</u>	<u>—</u>	<u>(42.22)</u>	<u>—</u>	<u>164.45</u>

The Fund's Share activities for the year ended March 31, 2024 were as follows:

	Balance as of April 1, 2023	Subscriptions	Redemptions	Distributions Reinvested	Balance as of March 31, 2024
Class I	<u>11,245.97</u>	<u> </u>	<u>(2,395.62)</u>	<u> </u>	<u>8,850.35</u>
Class A	<u>262.62</u>	<u>—</u>	<u>(55.95)</u>	<u>—</u>	<u>206.67</u>

6. Management Fee, Related Party Transactions and Other

The Fund bears all of the expenses of its own operations, including, but not limited to, the investment management fee for the Fund payable to the Advisor, and administration fees, custody fees, and transfer agent fees.

In consideration for its advisory and other services, the Advisor shall receive a quarterly management fee, payable quarterly in arrears based on the NAV of the Fund as of the last business day of such quarter, prior to any quarter-end redemptions, in an amount equal to an annual rate of 1.00% of the Fund's NAV. The Fund charged a reduced management fee at an annual rate of 0.50%. For the six months ended September 30, 2024, the Fund incurred net management fees of \$9,280.

Shareholders pay certain fees (e.g., the Management Fee) and expenses of the Fund and indirectly bear the fees (e.g., management fees of Portfolio Fund managers) and expenses of the Portfolio Funds in which the Fund invests. Similarly, Shareholders may indirectly pay incentive compensation to Portfolio Fund managers that charge their investors incentive compensation. The Fund's expenses thus may constitute a higher percentage of net assets than expenses associated with other types of investment entities. Class A Shares and Class I Shares are subject to different fees and expenses.

ALPS Fund Services, Inc. ("ALPS") provided accounting and administrative services to the Fund under an administrative services agreement.

UMB Bank ("UMB") provided custody services to the Fund under a custody services agreement.

DST Asset Manager Solutions, Inc. ("DST") provided transfer agency services to the Fund under a transfer agency services agreement.

Fees to ALPS, UMB and DST are payable monthly.

Distribution Plan

The Fund has adopted a Distribution Plan (the "Plan"), pursuant to Rule 12b-1 under the 1940 Act, with respect to its Class A Shares.

Under the Plan, the Fund may pay an aggregate amount on an annual basis not to exceed 0.85% of the value of the Fund's average net assets attributable to its Class A Shares for services provided under the Plan. The Fund began waiving distribution and service fees effective April 1, 2022. For the six months ended September 30, 2024, the Fund incurred no Class A distribution and service fees.

7. Risks and Contingencies

The Fund's investments in Portfolio Funds may be subject to various risk factors including market, credit, currency and geographic risk. The Fund's investments in Portfolio Funds may be made internationally and thus may have concentrations in such regions. The Fund's investments in Portfolio Funds are also subject to the risk associated with investing in Portfolio Funds. The Portfolio Funds are generally illiquid, and thus there can be no assurance that the Fund will be able to realize the value of such investments in Portfolio Funds in a timely manner. Since many of the Portfolio Funds may involve a high degree of risk, poor performance by one or more of the Portfolio Funds could severely affect the total returns of the Fund.

Although the Fund's investments in Portfolio Funds are denominated in U.S. dollars, the Fund may invest in securities and hold cash balances at its brokers that are denominated in currencies other than its reporting currency. Consequently, the Fund is exposed to risks that the exchange rate of the U.S. dollars relative to other currencies may change in a manner that has an adverse effect on the reported value of that portion of the Fund's assets which are denominated in currencies other than the U.S. dollars. The Fund may utilize options, futures and forward currency contracts to hedge against currency fluctuations, but there can be no assurance that such hedging transactions will be effective.

From time to time, the Fund may have a concentration of Shareholders holding a significant percentage of its net assets. Investment activities of these Shareholders could have a material impact on the Fund. As of September 30, 2024, one Shareholder maintains a significant holding in the Fund which represents 39.13% of the Fund's NAV.

MORGAN CREEK GLOBAL EQUITY LONG/SHORT INSTITUTIONAL FUND

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

SEPTEMBER 30, 2024 (UNAUDITED)

In order to obtain more investable cash, the Portfolio Funds may utilize a substantial degree of leverage. Leverage increases returns to investors if the Managers earn a greater return on leveraged investments than the Managers' cost of such leverage. However, the use of leverage, such as margin borrowing, exposes the Fund to additional levels of risk including (i) greater losses from investments in Portfolio Funds than would otherwise have been the case had the Managers not borrowed to make the investments in Portfolio Funds, (ii) margin calls or changes in margin requirements may force premature liquidations of investment positions and (iii) losses on investments in Portfolio Funds where the Portfolio Funds fails to earn a return that equals or exceeds the Managers' cost of leverage related to such Portfolio Funds.

In the normal course of business, the Portfolio Funds in which the Fund invests may pursue certain investment strategies, trade various financial instruments and enter into various investment activities with off-balance sheet risk. These include, but are not limited to, leverage, short selling, global tactical asset allocation strategies, event-drive strategies and other related risks. The Fund's risk of loss in each Portfolio Fund is limited to the value of the Fund's interest in each Portfolio Fund as reported by the Fund.

Short sales involve the risk that the Fund will incur a loss by subsequently buying a security at a higher price than the price at which the Fund previously sold the security short. Any loss will be increased by the amount of compensation, interest or dividends, and transaction costs the Fund must pay to a lender of the security. In addition, because the Fund's loss on a short sale stems from increases in the value of the security sold short, the extent of such loss, like the price of the security sold short, is theoretically unlimited. By contrast, the Fund's loss on a long position arises from decreases in the value of the security held by the Fund and therefore is limited by the fact that a security's value cannot drop below zero.

8. Indemnifications

The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.
